

Dryer Cartridge – AV107794

P/N: SB117L

**Would you buy a filter if you were only getting
60 to 80% of the filtering element?**

Some aftermarket 107794 style cartridges contain less than the full amount of dessicant. We've found as little as 2.2 lbs and commonly just over 3 lbs. Look to PBC for consistent quality.

AV107794

Dessicant Weight	3.7 lbs +/- .1 lb which is equal to OE Service units
Manufacturing Process	New , not rebuilt like most aftermarket units
Core Charge	\$0.00 compared to about \$25 for most rebuilds
Fleet \$	About equal to OE Service units before their core charge

With PBC's AV107794, you get:

- * Equal dessicant to OE Service units
- * New, no re-used parts
- * Better value, no hidden cost in cores
