

# Nylon Air Brake Tubing

P/N: SB122L

## Flexible and Durable

Most brands of nylon air brake tubing look alike. But there are tangible differences in material and manufacturing processes. These differences affect product life and the ability to meet the new DOT requirements. PBC delivers OEM quality that meets every standard!

Note: Type 3A for 1/8," 1/4," 5/16"  
Type 3B for 3/8," 1/2" 5/8," 3/4"

**Compliant with DOT FMVSS 106 which includes SAE844d requirements. Designed per SAE J2547 proposal.**

- \* **Non-polyamide based material delivers superior stability vs. materials with plasticizers**
- \* **Improved flexibility vs. alternative nylon materials**
- \* **Superior dimensional stability in the most extreme temperatures (-50°F to 200°F)**
- \* **21<sup>st</sup> century manufacturing technology insures uniform wall thickness during full life cycle to eliminate burst concerns**

Like the veins in your body, nylon brake tubing are the veins of the air brake system. So for the best performance and life of the system, use PBC for OEM dependability.
