

There are over 40,000 Transit (Coach) Buses in operation in the United States and Canada traveling over 2.5 BILLION miles per year.

Bosch wiper blades and parts are no longer available for transit buses. Transit bus OEMs have used Bosch wiper parts in the past, however, since Bosch has exited the market, many companies are not able to source the replacement wiper blades needed. To replace a wiper blade, a wiper arm and blade kit must be purchased. This results in spending a few hundred dollars to replace a wiper blade as well as a dramatic increase in labor hours.

PrimaTech now supplies the direct Bosch replacement wiper blades for all primary Transit Bus manufacturers. There are three part numbers that cover most transit bus applications, those shown with cross reference information below. To select the correct blade, measure the length and determine if the saddle is heavy duty or heavy duty stainless steel.

PN	Wiper Blade Description	Applications	Cross Reference
PTW52-27	26" Transit	MCI - 102A3; 102DL; 102D3. Prevost - Le Mirage; XL; RTS. New Flyer	Anco 52-27
PTW78-28	28" 13.6mm/17mm Heavy Duty	MCI - D4000; D45000 Cruiser	MCI 3L-34-118
PTW77-30	30" 13.6mm/17mm Heavy Duty Saddle	Transit and Coach Buses	
PTW77-32	32" 13.6mm/17mm Heavy Duty Saddle	Transit and Coach Buses	
PTW77-32L	32" 21mm/27mm Stainless Steel HD Saddle	MCI - J4500; Bosch & Bosch-Setra Systems	MCI 03-34-1036 Bosch CB6002UWB00A
PTW77-34	34" 13.6mm/17mm Heavy Duty Saddle	Transit and Coach Buses	
PTW77-34L	34" 21mm/27mm Stainless Steel HD Saddle	Transit and Coach Buses	
PTW77-36	36" 13.6mm/17mm Heavy Duty Saddle	Transit and Coach Buses	
PTW77-36L	36" 21mm/27mm Stainless Steel HD Saddle	Transit and Coach Buses	
PTW77-38L	38" 21mm/27mm Stainless Steel HD Saddle	Transit and Coach Buses	
PTW77-40L	40" 21mm/27mm Stainless Steel HD Saddle	Transit and Coach Buses
