

PrimaTronics Stainless Steel Mirrors deliver a great look with excellent durability.

Features:

- Corrosion proof 430 stainless steel
- Silvered mirror glass impedes corrosion, peeling & pitting
- Glass mounted in ozone resistant vinyl gasket
- Stainless steel superior to chrome because it will not chip from road debris

PrimaTronics Stainless Steel Mirrors are available in a wide variety of designs:

- West Coast style available in seven (7) different back designs
- West Coast style available with options of heated, lighted and LED left & right arrows
- Most West Coast styles also available in black or white
- Convex mirrors available with options of heated and LED left & right arrows
- Most convex styles also available in black
- Step van, tripod and fendor mount styles also available

See reverse side for complete coverage.
